

The 2016 Environmental Complaint Report Jersey County Code Administrator

The office receives numerous environmental complaints from residents all through the year. Some of these complaints the office may act on as provided by the adopted Property Maintenance Ordinance while others are rejected.

The majority of the complaints consisted of derelict vehicles, trash and debris, and tall grass and weeds. The following chart illustrates the townships that we have received the most complaints in 2016.

Environmental Complaints for 2016

There were a total of 30 complaints, 4 are still open and 24 complaints were abated. At the request of the State's Attorney; 2 fines were issued and are in court proceedings. The bulk of the complaints are located in the townships of Elsah and Mississippi followed by Piasa.
