## The 2017 Environmental Complaint Report Jersey County Code Administrator

The office receives numerous environmental complaints from residents all through the year. Most of these property issues are remedied through the adopted Property Maintenance Ordinance while others are rejected. The figures reported are justified complaints.

The majority of the complaints consisted of derelict vehicles, abandoned or dilapidated houses, tires, and tall grass and weeds. The following chart illustrates the Townships that we have received complaints for 2017.

There were a total of 55 complaints, 48 complaints were abated, 7 are still open and of these 7 cases; 4 citations were issued and are in court proceedings. The bulk of the complaints are located in the townships of Elsah and Rosedale followed by Mississippi.
